

The Press Council in BiH is realizing the project

INDICATORS FOR ASSESSING MEDIA FREEDOM IN COUNTRIES MEMBERS OF THE COUNCIL OF EUROPE

The Press Council in Bosnia and Herzegovina, with the ideal and financial support of Civil Right Defenders CRD, and in cooperation with BH Journalists, is working towards the realization of activities for the draft of Indicators for the assessment of media freedom in BiH.

This analysis is being conducted according to Indicators given by the Council of Europe, with the recommendation for the Parliaments of countries members of the Council of Europe to revise it on a yearly basis in order to improve media freedom. The work method for obtaining the final picture is to conduct analysis of media and legal experts (media legislation, regulation and self-regulation), interviews with owners of media and journalists, politicians, BiH government representatives, as well as to organize focus groups with citizens and members of NGOs.
